

FUNCTIONAL LIVING SPACES WITH SLEEK STYLING

All Kinsellas Grove townhomes boast three generous bedrooms including a luxurious air-conditioned master suite with ensuite. Townhome options include either one or two living areas and three distinctive garage options to cater for various needs. Each townhome also offers open plan living and entertainment areas.

The kitchen hub is centrally located between the indoor entertaining area and outdoor alfresco.

Roycorp ensures that each townhome is completed in accordance with the 12 Stage Quality Assurance program, guaranteeing a meticulous finish.

Sophisticated styling mixed with practical design means that each townhome is fitted with stone bench tops, air conditioned living spaces, master suite and stainless steel appliances.
